

Wall Graphics Product Guide

Transform ordinary spaces with high-quality,
eye-catching wall graphics.

IMAGin® Digital Media delivers industry-leading, trusted products to meet all your wall graphics needs. From high-performance films to cost-effective promotional products, IMAGin offers an ever-expanding portfolio of products with exceptional durability and superior printability. Its growing selection of specialty products features top-coated fabric and vinyl with special removable and bubble-free adhesive technology designed for ease of application. Mactac's IMAGin line of wide-format digital media provides endless choices for complex to typical applications and everything in between – all backed by our Open-Image Warranty™.

Supplying highly engineered products for a wide range of specialty applications:

IMAGin wallNOODLE™ – a short-term media designed for easy installation, repositionability, removability and reusability. Use for posters, cutouts and P.O.P. displays and any flat surface wall graphic.

IMAGin ROODLE™ – a short-term media with removable adhesive that can be printed to the edge for tiled graphics and wall murals designed for easy installation on flat interior wall surfaces.

IMAGin RoughRap™ – a highly conformable vinyl for a paint-like appearance on brick and textured wall surfaces.

IMAGin digiTrans™ – an intermediate media with a semi-permanent black block-out adhesive. This adhesive is great for indoor and outdoor removable murals and signage.

IMAGin GRUV™ 429R – An easy to install air-egress media designed for advertising, promotions and wall graphics GV429R has an opaque, removable adhesive to simplify removal.

Mactac®
technology that sticks

MACmark® takes your wall graphics from ordinary to extraordinary. Build your business and your reputation with the complete line of MACmark vinyl marking films featuring a broad spectrum of colored films for cut vinyl applications. MACmark films exhibit excellent conformability and adhesion to difficult surfaces. MACmark provides beautiful long-term color and the industry's highest gloss level.

MACmark 8900PRO – versatile removable marking films for home décor graphics, interior design, and wall words; 8900PRO is cleanly removable for up to two years after application, making it ideal for home wall fashions.

MACmark 8300PRO – the workhorse of Mactac's computer cut signage vinyls; offering excellent adhesion for wall graphics on flat to moderately curved surfaces. 8300PRO offers a beautiful high gloss finish at very competitive price.

PERMACOLOR® revolutionizes your digital, photographic and lithographic images. With high-performance overlaminates, specialty overlaminates providing unique features and intermediate overlaminates designed for all your laminating needs, PERMACOLOR protects wall graphics above and beyond expectations. PERMACOLOR optically clear films with special UV light inhibitors make your image last. PERMACOLOR adds the finishing touch to enhance your best work in all your specialty overlaminate applications.

Create an impact with your images using:

PERMACOLOR Enhancers – add a sparkling finish to high-profile, wide-format and screen print graphic applications.

ColorGard™ LUV – provides superior protection and color enhancement with fast, efficient results, quick wet-out and non-silvering properties. Available in gloss, matte and lustre.

PERMACOLOR PromoGard Series – economical protection against scuffing, abrasion, moisture and UV light.

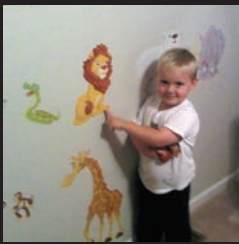

PERMACOLOR PermaGard® Dry Erase – convert almost any flat or simply curved surface to a dry erase board; also useful as an economical, high-gloss laminate for indoor or short-term outdoor signs.

PERMACOLOR RAYZor™ – for applications requiring extreme conformability and clarity – including brick and textured walls, windows and floors for curved surfaces, signage and vehicle wraps.

PermaFlex Textured Laminates – protect wall graphics from fingerprinting and add a pleasing texture for short- to long-term applications.

Mactac®
technology that sticks

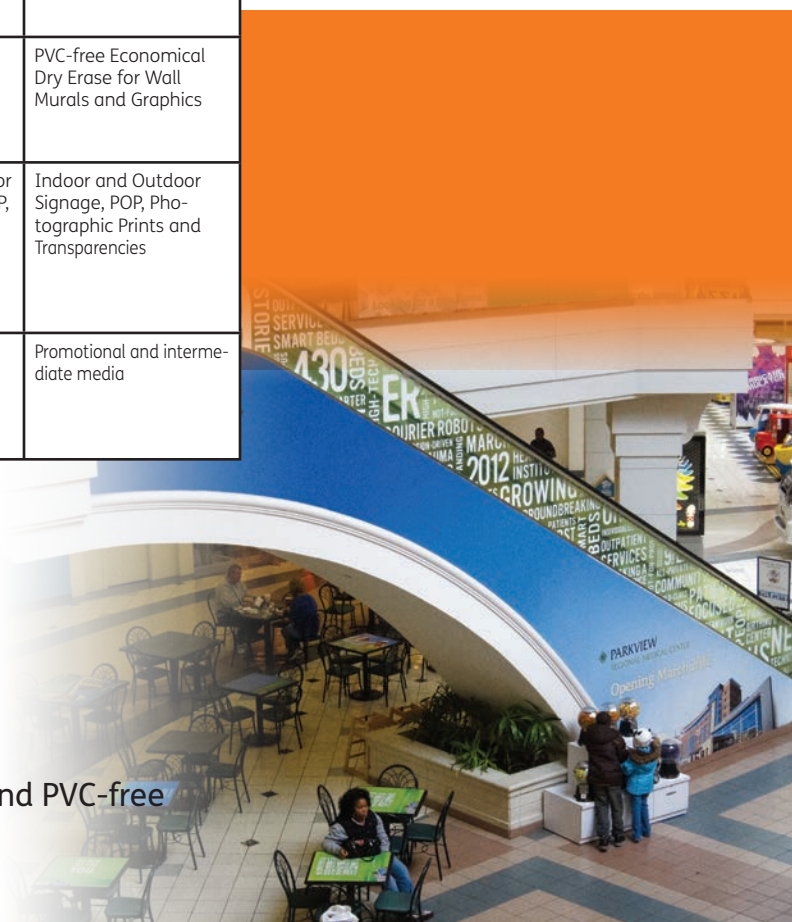

Wall preparation is critical to a successful installation. Please refer to Mactac's Technical Assistance Guide TA2500 "Graphics Application to Drywall" for detailed application instructions for painted drywall. For applications to rough textured surfaces, please refer to TA2102, "IMAGin RoughRAP™ Installation Guide." Both Guides can be found on www.mactac.com/Graphics.

 A Greener Choice — 100% Chlorine-, Phthalate- and PVC-free

Open Image Warranty™ for Mactac® Media and Laminates:

You make the choice of printer and ink that are best for your business and Mactac will be the partner that stands behind you. Simply provide us with your system and if we have not already tested the combination, we'll run a comprehensive series of tests to insure the system works and then warrant your application. If we find the components are not compatible we'll let you know that, too, and make alternative recommendations. It's that simple!

We stand behind you. And, we work with the most popular printer and ink suppliers to ensure product compatibility and durability.
