EASYFILL BULK INK SYSTEM HP 9000 & 10000

INX Digital is proud to offer to the wide format printing community a revolutionary bulk ink delivery system, the EasyFill Pro™. The EasyFill Pro™ system will substantially increase and enhance your productivity while reducing your costs. When using the EasyFill Pro™ system, you can discontinue use of OEM cartridges, therefore reducing your company's dependency on the OEM. By using our bulk inks you will feel the positive effect in cost savings.

ENVIRONMENTALLY RESPONSIBLE NANO DISPERSED DYE DIGITAL INKS FOR DIRECT-TO-TEXTILE PRINTING

TRIANGLE® water-based textile inks DTX are designed for digital printers utilizing piezo print head technology. These inks are intended for direct-to-textile printing on polyester or mixed synthetic fabrics that contain a minimum of 60% polyester. In the direct-to-textile printing method, images are printed directly onto the fabric and are subsequently put through a process of thermo-fixation. With our textile inks you will see:

- Vibrant colors
- Long shelf life
- Optimal jettability
- Superior image definition
- Excellent fastness properties

APPLICATION

The market that we have focused on for the DTX textile inks is flag and banner. These TRIANGLE® inks will perform optimally when printing direct to polyester banners and flags on treated fabrics.

THERMO-FIXING CONDITIONS

Thermo-fixing can occur by means of a press or a calendar. The temperature and time for thermo-fixing varies depending on the chemical-physical characteristics of the substrate being printed.

COLOR	TEMPERATURE/HEAT SETTING	UV LIGHT DURABILITY*	WASHING DURABILITY*
Cyan	170°C - 210°C	5/7	4/5
Magenta	170°C - 210°C	6/7	5
Yellow	170°C - 210°C	6/7	4/5
Black	170°C - 210°C	6	5
Light Cyan	170°C - 210°C	5/6	4/5
Light Magenta	170°C - 210°C	6/7	5

*Durability is based on a scale of 1 - 8.

FORMAT INKJET INK

INK TRAIN WARRANTY

INX Digital offers the most comprehensive warranty in the industry. If inks are proven to be the cause of the printer breakdown, then INX Digital will provide parts, service or reimbursement costs required to repair damage to the ink train.*

*See warranty disclosure statement for details.

OUTDOOR DURABILITY WARRANTY

INX Digital backs its two-year products with its Worldwide Ink Durability Warranty. INX Digital's TRIANGLE® Inks have been extensively used for many years and exposed to virtually all global and outdoor climates.*

*See specific product durability warranties as some vary.

Ask a sales representative for INX Digital's complete Worldwide Ink Durability Warranty.

COLOR CENTER

INX Digital provides custom profiles to our customers. Every print shop is unique in its set up just as every printer is slightly different from the other. For this reason we offer to create custom profiles for our customers' various needs.

For additional info: techsupport.global@INXdigital.com

TECH SUPPORT

Have any questions or issues that need to be resolved? We have the answers and solutions.

For additional info: techsupport.global@INXdigital.com

SPARE PARTS

INX Digital offers common replacement parts (at a significant savings over the OEM) for many of the printers that we manufacture ink for. These parts are the same parts that are sourced by the manufacturers themselves, refurbished, or are re-sourced to solve known problems.

For additional info: techsupport.global@INXdigital.com

COLOR COMPATIBLE

Look for our Color Compatible logo on our wide format products. Our TRIANGLE® brand continues to launch color compatible products. We have set a new standard internally for color compatibility with OEM profiles. When you see this logo on our literature you can feel at ease that we have raised the bar on simplicity for changing to a Triangle product.

In the near future you may be able to "choose your color gamut" with TRIANGLE®'s wide format line to meet your needs. This is in addition to being able to choose your chemical technology such as Bio, Eco or True solvent.

CHEMICALLY COMPATIBLE

We are also looking to make your change-overs to TRIANGLE® brand products easy with chemically compatible products. We have developed a new series of tests to assure that our products are forward compatible (our cartridge being inserted after the OEM) and backward compatible (the OEM ink being reloaded over our ink). This allows our users to feel a reduced risk in trying our inks.

LIQUID LAMINATES

WHAT ARE LIQUID LAMINATES?

TRIANGLE® Liquid Laminates are a series of products from INX Digital designed specifically to protect prints from UV light and other environmental effects. These solvent-based and aqueous-based products protect solvent-based or uv curable prints. TRIANGLE® Liquid Laminates are of the highest quality, giving your prints the best protection.

WHY LIQUID LAMINATES?

TRIANGLE® Laminates protect digitally produced images from abrasion, water, and premature fading while maintaining the flexibility and elasticity of the media; they are weldable. They also “pop” the colors, giving a wet look to the print. While providing these features TRIANGLE® Liquid Laminates also maintain a lower cost per square meter in comparison to hard laminates.

UV PROTECTION

TRIANGLE® has set new higher standards in quality with their Liquid Laminate's: blocking 99% of light by utilizing current state-of-the art methods in UV protection, UVA (Ultra Violet Absorber), and HALS (Hindered Amine Light Stabilizers). When used in accordance with TRIANGLE® inks, your print job's lifetime will be extended.

HOW TO APPLY LIQUID LAMINATES

TRIANGLE® Liquid Laminates can be applied using various methods depending on the type of coating and substrate being utilized: automated coaters, brushing, rolling, or spraying are all viable options. To obtain optimal protection, it is recommended to apply the specified required amount of coating to the substrate (specific to product type). Follow the product applications instruction for best results. Always test before use.

D320 - D321 CLEARFLEX ME

AQUEOUS-BASED LIQUID LAMINATE FOR TRUCK SIDE, FLEET, AND VEHICLE GRAPHICS

- ▼ Extremely durable
- ▼ Formulated for truck side and fleet graphics
- ▼ Minimizes dirt pickup
- ▼ Minimizes the effect of UV light transmission
- ▼ Minimizes the effect of oxidation, moisture, and temperature
- ▼ High abrasion resistance

CLEARFLEX ME GLOSS ●●●

Available in 1lt, 5lt and 20lt bottle.
6 x 1 liter -Net quantity 6 liters.
4 x 5 liter -Net quantity 20 liters.
1x20 liter -Net quantity 20 liters.

-  **1291275-01LT** 1lt Bottle D320 Clearflex ME Gloss

TECHNICAL SERVICE & SUPPORT

Rapid-response, service-support. Cross-platform support is a part of the INX Digital package. This includes equipment parts as well as specialists who can service many printer makes and models. With an unsurpassed Global Dealer Network offering full technical training and local technical support to customers, INX Digital redefines “value added.” INX Digital has broken down its main support system into four segments: Field Service, Head Cleaning, Color Management, and Printer Conversions.

INK CONVERSIONS

On-site technicians are available to perform ink conversions to TRIANGLE® brand ink. This process includes benchmarking the printer prior to the ink conversion and removal of old ink, installation of TRIANGLE® ink and post-conversion proof prints. The ink train preparation will include a filter change and flushing of integral components to optimize installation of TRIANGLE® ink. The conversion may also include light maintenance and mechanical adjustments if needed. The conversion process requires a minimum two-day onsite technical visit by a qualified/authorized TRIANGLE® technician.

HEAD CLEANING

INX Digital is employing a new, patent-pending cleaning technology, offering an effective solution for solvent and UV curable print heads with obstructed nozzles and restricted flow. This advance in print head cleaning, available for virtually all print head types, translates to major savings for digital print operations. This service is designed for industrial print heads such as: Dimatix® (formally Spectra®), Xaar® 1001™, Ricoh®, Konica Minolta®, T-tec™, Kyocera®, and Jetrion® GT64™. This service is not suitable for disposable-type print heads such as Xaar® 128/126™ and Epson®. For more information on our print head cleaning services please email: printheadcleaning@INXdigital.com.

COLOR MANAGEMENT

More than just ink. INX Digital continues to strive to meet the demands of the market when formulating our TRIANGLE® inks. In some cases color compatibility is a must whereas in other situations formulas with greater color gamut compared to the OEM's are requested. Application-savvy INX Digital people not only know digital inks, but also the nuances of different equipment-crucial know-how that helps operators achieve color quality and consistency, and get jobs out the door. Our technicians are happy to provide assistance with ICC profile generation, creation of custom color profiles, or even provide a full color-management training program for large printing operations.

3-DAY COLOR MANAGEMENT TRAINING PROGRAM

We offer a three-day training program that is designed to provide digital print customers with the fundamentals required to drive their workflow more efficiently. In this three-day course, customers will receive basic training on printer calibration, color management strategy, and expectation management. Basic program includes:

- ▼ 2.0-day printer calibration and characterization
 - 2 production machines
 - 2 medias each (total of 4)
- ▼ 0.5-day workflow and color management strategy
 - Color Management in Adobe® Creative Suite®
 - Evaluating color on the display
 - Understanding Color Management Fundamentals
- ▼ 0.5-day expectation management
 - Communicating color internally (prepress to production)
 - Communicating color to your customers (delivery)
 - Communicating color to your customers (sales)

2-DAY COLOR MANAGEMENT TRAINING PROGRAM

More complex sites (multiple printer brands and RIPs) might require extra days to offer assistance in locking down the color process, standardization and managing production variables. We offer the following extras beyond the basic program:

- ▼ 1.0-day printer calibration and characterization
 - 2 production machines
- ▼ 0.5-day workflow and color management strategy
 - Color Management in Adobe® Creative Suite®
- ▼ 0.5-day expectation management
 - Communicating color internally (prepress to production)

*This program requires a pre-qualification process, including preliminary interview and evaluation of print conditions through basic test files. Requires two weeks advanced notice. Requested travel within two weeks may be subject to a rush charge of \$800.

Order Codes AMERICAS	Order Codes	Service Description
7768	7768	On-site service
7765	7765	On-site expenses
7796	7796	Phone support (1 year contract)

FIELD SERVICE

On-site technician performs preventative maintenance or repair service on printers currently installed with TRIANGLE® ink. The technician will to evaluate printer's condition and then identify and perform required service. Field service technicians have access to INX Digital's extensive Parts Program, which can be purchased separately.

MARKETING

Need marketing collateral or design work? We can help! The INX Digital Global Marketing Team works together to create ad campaigns, product literature (data sheets and sell sheets), electronic advertisements, newsletters, email blasts and more to promote our TRIANGLE® brand as well as specific product messages. There are many types of collateral we produce that could easily be put to use within your own company's marketing strategies, whether you keep everything the same or make simple modifications. For more information on ways our team can help yours, please email: IDImarketing@INXdigital.com.

PRINT ADVERTISEMENTS:

Interested in using one of our ads? We are happy to replace our contact information and website address with your own details and provide the artwork electronically.

ELECTRONIC ADVERTISEMENTS:

Did you like something you saw from us that came through electronically that you want to use? Just ask! We can quickly and easily change the contact information and website address with your own details and provide the artwork electronically.

PRODUCT LITERATURE:

Need data/sell sheets for an upcoming event or to send out via email to potential customers? Register with smartINX.com and get access to all of our TRIANGLE® sell sheets for the entire product line. Need them customized with your company's contact details and logo? No problem, we can help you with that!

TRADESHOWS:

Are you participating in an upcoming tradeshow that includes TRIANGLE® products as a highlight of your exhibit? We can offer assistance with your planning.

- Booth design
- Banner/Graphic design
- Labeled, empty display bottles
- Tradeshow bags
- Logo pens

SAMPLE PRINTS:

Need printed samples from a specific printer using TRIANGLE® inks to show prospective clients? We can help you with this. Our marketing group is happy to help coordinate printed samples with our applications lab.

HTML NEWSLETTER:

Looking for a fast and effective way to reach lots of customers at a low cost? Let us help you customize one of our newsletter templates so you can get the word out about TRIANGLE® products.
