

## Always lays flat, with no edge curling, no wrinkles and no dog ears.

Conform® is the original application tape with RLA® Release Liner Adhesion. With RLA®, Conform® sticks to slick release liners, so tapes do not “dog ear” and stick together. Graphics stay neater and cleaner, even when they are rolled. Conform® series application tapes and screen printing premasks are available in standard and heavyweight paper grades, in a variety of tack levels from low to high.

**4050RLA**

**Medium Tack**

Standard weight paper application tape with a medium tack rubber adhesive. Perfect for masking small to mid sized, prespaced vinyl and printed graphics.

**4075RLA**

**High Tack**

Standard weight paper application tape with a high tack rubber adhesive.

**4076RLA**

**Higher Tack**

Standard grade saturated paper application tape, coated with a slightly higher tack rubber adhesive.

**4078RLA**

**Medium Tack**

Standard weight paper application tape with a medium tack adhesive. Recommended for applying wall graphics.

### Applications

- General purpose sign applications
- Screen printing
- Digital printing
- Surface protection for plastics and polished metal

### Features

- Added RLA® Release Liner Adhesion
- Factor cut, razor slit rolls
- Rubber adhesive
- Heavyweight standard paper
- Available in a variety of tack levels

### Benefits

- Lay flat with no tunneling or edge curling
- Graphics look more professional and have more sales appeal
- Tears cleanly ... no stringy, legging adhesive
- No adhesive balls, gapping between layers or crushed edges
- No adhesive build-up on stored graphics
- Works in either wet or dry applications
- Fewer problems when shipping rolled graphics

**4700LT RLA**    **Low-Medium Tack**

Heavyweight, highly saturated paper application tape with a low-medium tack rubber adhesive. Designed for use with vinyl paint masks.
