

NEW!

ChalkTalk™

NON-VINYL CHALKBOARD FILM

REMOVABLE CHALKBOARD FILM FOR ALL YOUR CREATIVE USES!

WHAT IS IT?

ChalkTalk™ is a 6 mil non-PVC film coated with a repositionable, removable adhesive. Available in slate gray, its grainy texture provides an exceptional finish for writing and drawing with chalk. ChalkTalk™ is perfect for use as a restaurant menu board or as an appliqué in a home environment. Wipes clean with an eraser, damp towel or sponge.

Unlike plasticized vinyl products, RTape's new chalkboard film is an environmentally friendly product. ChalkTalk™ is safe for use in food service environment or in a home. Tested by a certified independent lab for CPSIA compliance, ChalkTalk™ is lead-free and phthalate free.

ChalkTalk™ cuts as easily as a calendered film and applies easily to any flat, smooth, clean sign substrate or directly to painted drywall, kitchen cabinets or refrigerators.

To aid application of the film, ChalkTalk™ features a repositionable, removable adhesive system. When you are ready for a change, just peel off the film for a clean removal with no adhesive residue. No harmful chemicals are needed to remove the film or adhesive.

CHALKTALK™ ADVANTAGES:

- **Textured, slate gray surface** provides an exceptional finish for drawing with chalk.
- **Wipes clean** with an eraser, damp towel or sponge.
- **Easy application** to flat, smooth surfaces such as sign blanks and painted drywall.
- **Removes easily** with no adhesive residue. No time-consuming clean up. No hazardous chemicals required for removal.
- **Eco-friendly & child safe:** CPSIA compliant. Lead free. Plasticizer-free. Phthalate free.
