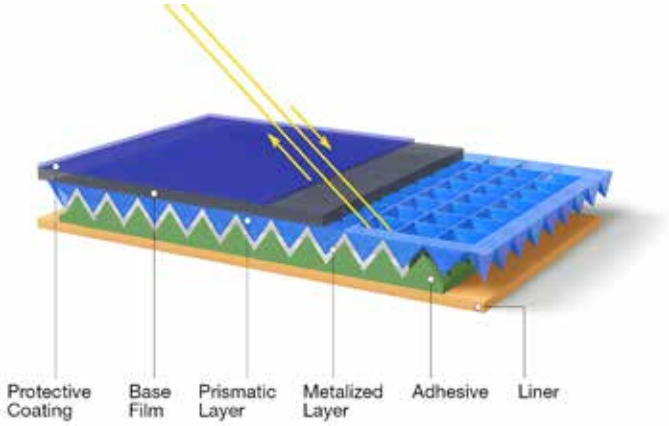
First Microprismatic Retroreflective Technology in the Industry

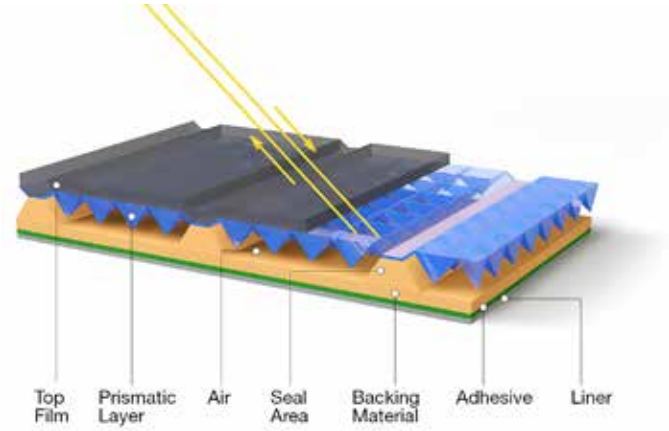
In 1966 industry pioneer, Bill Rowland, used a manila file folder to conceptualize the original microprismatic retroreflective cube corner prism technology. This advancement is now a part of the ORAFOL family of ORALITE films.

Overview of Retroreflective Materials

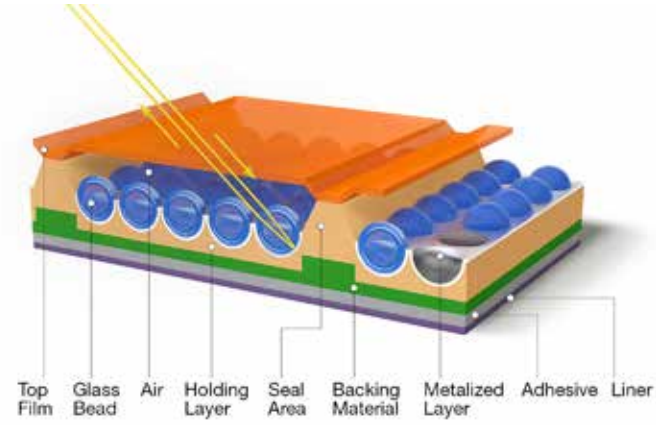
Prismatic Metalized



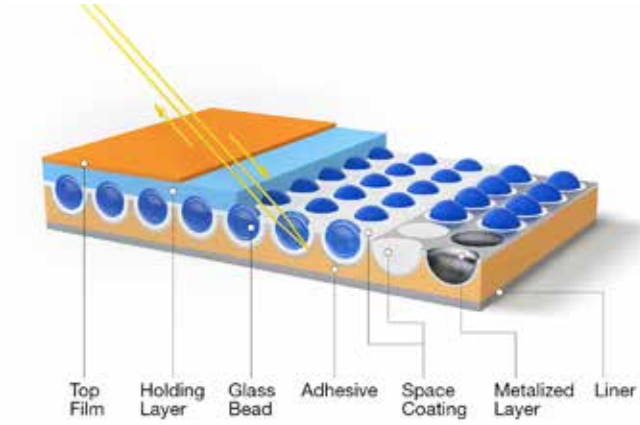
Prismatic Air Backed



Encapsulated Glass Bead



Embedded Glass Bead



ORALITE® 7900

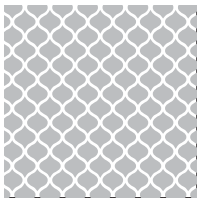
Wide Observation Angle Prismatic

For long-term outdoor signing applications

Product Features and Benefits:

- Weatherproof
- 10 to 13-mil construction
- Clear, solvent polyacrylate, permanent adhesive
- Excellent UV and screen printability
- High performance acrylic film
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type IX, Class 1 retroreflective sheeting

Recommended lettering film: ORALITE® 5081, ORALITE® 5061
Recommended transparent overlay film: ORALITE® 5061
Recommended screen printing ink: ORALITE® 5018
Recommended digital UV printing ink: ORALITE® 5019



Product Identification pattern for ORALITE® 7900

Product	Available Colors	Print Compatibility	Available Widths*	Available Lengths*	Outdoor Durability
ORALITE® 7900	white, yellow, orange, red, green, blue, brown, fluorescent yellow, fluorescent yellow green	screen printing & digital UV printing	12.75", 18", 24", 30", 36", 48"	150' (50-yard)	Up to 12 years

*Custom sizes available. Please contact your local sales representative for more information.
Please Note: This product is exclusively intended for adhesion to flat surfaces.

ORALITE® 5900

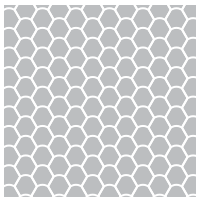
High Intensity Prismatic (HIP) Grade

For long-term outdoor applications

Product Features and Benefits:

- Weatherproof
- 9-mil
- Clear, solvent polyacrylate, permanent adhesive
- Excellent digital UV and screen printability
- High performance acrylic film
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type IV, Class 1 retroreflective sheeting

Recommended lettering film: ORALITE® 5081
Recommended transparent overlay film: ORALITE® 5061
Recommended screen printing ink: ORALITE® 5018
Recommended digital UV printing ink: ORALITE® 5019



Product Identification pattern for ORALITE® 5900

Product	Available Colors	Print Compatibility	Available Widths*	Available Lengths*	Outdoor Durability
ORALITE® 5900	white, yellow, orange, red, green, blue, brown	screen printing & digital UV printing	12.75", 18", 24", 30", 36", 48"	150' (50-yard)	Up to 10 years

*Custom sizes available. Please contact your local sales representative for more information.
Please Note: This product is exclusively intended for adhesion to flat surfaces.

typical application example of ORALITE® 7900

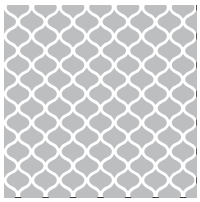
NEW! ORALITE® 5935

High Intensity Prismatic Grade

For *evacuation/incident management* including hurricanes, floods, and other natural disasters

Product Features and Benefits:

- Weatherproof
- 22-mil construction
- Clear, acrylic, permanent adhesive
- Excellent screen and digital UV printability
- High performance acrylic film
- Meets ASTM D4956 specification for Type VI (fluorescent pink), Class 1 retroreflective sheeting



Product Identification pattern for ORALITE® 5935

Recommended lettering film: ORALITE® 5081, ORALITE® 5061
Recommended transparent overlay film: ORALITE® 5062
Recommended screen printing ink: ORALITE® 5018
Recommended digital UV printing ink: ORALITE® 5019

Product	Available Colors	Print Compatibility	Available Widths*	Available Lengths*	Outdoor Durability
ORALITE® 5935	fluorescent pink	screen printing & digital UV printing	48"	150' (50-yard)	Up to 3 years

*Custom sizes available. Please contact your local sales representative for more information.
Please Note: This product is exclusively intended for adhesion to flat surfaces.

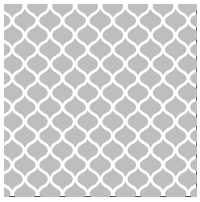
ORALITE® 6700

Engineer Grade Prismatic

For long-term outdoor applications

Product Features and Benefits:

- Weatherproof
- 8.2-mil construction
- Clear, acrylic, permanent adhesive
- Excellent UV and screen printability
- High performance acrylic film
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type I, Class 1 retroreflective sheeting



Product Identification pattern for ORALITE® 7900

Recommended lettering film: ORALITE® 5081, ORALITE® 5061
Recommended transparent overlay film: ORALITE® 5062
Recommended screen printing ink: ORALITE® 5018
Recommended digital UV printing ink: ORALITE® 5019

Product	Available Colors	Print Compatibility	Available Widths*	Available Lengths*	Outdoor Durability
ORALITE® 6700	white, yellow, orange, red, green, blue, brown	screen printing & digital UV printing	18", 24", 30", 36", 48"	150' (50-yard)	7 years

*Custom sizes available. Please contact your local sales representative for more information.
Please Note: This product is exclusively intended for adhesion to flat surfaces.

typical application example of ORALITE® 5900

ORALITE® 6700

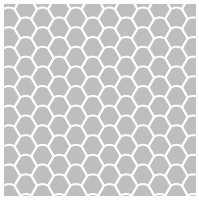
ORALITE® 5800

High Intensity Grade

For long-term outdoor applications

Product Features and Benefits:

- Weatherproof
- 10-mil
- Clear, solvent-based, permanent adhesive
- Excellent printability
- Excellent adhesion to metallic surfaces (e.g. aluminum and galvanized steel)
- High performance acrylate film
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type III, Class 1 retroreflective sheeting



Product Identification pattern for ORALITE® 5800

Recommended lettering film: ORALITE® 5081, 5061 black
Recommended transparent overlay film: ORALITE® 5061
Recommended screen printing ink: ORALITE® 5018
Recommended digital UV printing ink: ORALITE® 5019

Product	Available Colors	Print Compatibility	Available Widths	Available Lengths	Outdoor Durability
ORALITE® 5800	white, yellow, orange, red, green, blue, brown	screen printing & digital UV printing	15" (punched), 24", 30", 36", 48"	30' (10-yard) 150' (50-yard)	Up to 10 years

Please Note: This product is exclusively intended for adhesion to flat surfaces.

ORALITE® 5700

Engineer Grade Premium

For long-term outdoor applications

Product Features and Benefits:

- Weatherproof
- 5700 - 6-mil; 5500 - 5-mil
- Clear, solvent-based, permanent adhesive
- Excellent screen printability
- Excellent adhesion to metallic surfaces (e.g. aluminum and galvanized steel)
- Alkyd resin film
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type I, Class 1 retroreflective sheeting

Recommended lettering film: ORALITE® 5071, 5061 black
Recommended transparent overlay film: ORALITE® 5062
Recommended screen printing ink: ORALITE® 5018
Recommended digital UV printing ink: ORALITE® 5019

ORALITE® 5500

Engineer Grade

For long-term outdoor applications

Product	Available Colors	Print Compatibility	Available Widths	Available Lengths	Outdoor Durability
ORALITE® 5700	white, yellow, orange, red, green, blue, brown, black	screen printing, thermal transfer & digital UV printing*	15" (punched), 24", 30", 48"	30' (10-yard) 150' (50-yard)	7 years
ORALITE® 5500	white, yellow, orange, red, green, blue, brown, black	screen printing & digital UV printing	15" (punched), 24", 30", 48"	30' (10-yard) 150' (50-yard)	7 years

*5061 transparent overlay film required
Please Note: This product is exclusively intended for adhesion to flat surfaces.

ORALITE® 5300

Commercial Grade

For long-term outdoor applications

Product Features and Benefits:

- Weatherproof
- 3.5-mil
- Clear, solvent-based, permanent adhesive
- Excellent adhesion to metallic surfaces (e.g. aluminum and galvanized steel)
- Alkyd resin film
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type I, Class 1 retroreflective sheeting

Recommended lettering film: ORALITE® 5071, 5061 black
Recommended transparent overlay film: ORALITE® 5062
Recommended screen printing ink: ORALITE® 5018
Recommended digital UV printing ink: ORALITE® 5019

Product	Available Colors	Print Compatibility	Available Widths	Available Lengths	Outdoor Durability
ORALITE® 5300	white, yellow, orange, red, green, blue	screen printing & digital UV printing	15" (punched), 24", 30", 48"	30' (10-yard) 150' (50-yard)	7 years

Please Note: This product is exclusively intended for adhesion to flat surfaces.

ORALITE® 5400

Commercial Grade

For medium-term outdoor applications

Product Features and Benefits:

- Weatherproof
- 3.5-mil
- Clear, solvent-based, permanent adhesive
- Excellent adhesion to metallic surfaces (e.g. aluminum and galvanized steel)
- PVC solvent inkjet printable film
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type I, Class 1 retroreflective sheeting

Recommended lettering film: ORALITE® 5071, 5061 black
Recommended transparent overlay film: ORALITE® 5051
Recommended screen printing ink: ORALITE® 5018
Recommended digital UV printing ink: ORALITE® 5019

Product	Available Colors	Print Compatibility	Available Widths	Available Lengths	Outdoor Durability
ORALITE® 5400	white, yellow, orange, red, green, blue	inkjet printing, screen printing, and digital UV printing	24", 48"	150' (50-yard)	4 years

Please Note: This product is exclusively intended for adhesion to flat surfaces.

ORALITE® 5800

ORALITE® 5400

ORALITE® 5018 / 5019

Printing Inks

Product	Available Colors	Recommended for use on	Outdoor Durability
ORALITE® 5018 Screen Printing Ink	yellow, orange, red, green, blue, brown, black	Suitable for printing on all ORALITE® reflective films	Up to 12 years
ORALITE® 5019 UV Digital Printing Ink	yellow, red, green, blue, brown, black	For use with the ORALITE® UV Digital Sign Printer & overlay films	Up to 12 years

ORALITE® 5081 / 5071 / 5061

Lettering Films

Product	Face Film	Available Colors	Recommended for use on	Available Widths	Available Lengths	Outdoor Durability
ORALITE® 5081	cast PVC	black; gloss and matte *(with watermark)*	ORALITE® 9900, 7900, 5900, 5800	48”	150’ (50-yard)	Up to 10 years
ORALITE® 5071	PVC film	black; gloss and matte	ORALITE® 5700, 5500	24”, 48”	150’ (50-yard) 30’ (10-yard)	Up to 7 years
ORALITE® 5061	acrylic	black	ORALITE® 9900, 7900, 5900, 5800	24”, 48”	150’ (50-yard) 30’ (10-yard)	Up to 10 years

Please Note: ORALITE® 5071 is without a watermark and ORALITE® 5081 is supplied with a watermark.
ORALITE® 5081 has been approved for the manufacture of traffic control signs carrying the RAL quality label.

ORALITE® 5061 / 5062 / 5051 / 5090 / 5095

Transparent Overlay Films

Product	Available Colors	Film Compatibility	Available Widths	Available Lengths	Outdoor Durability
ORALITE® 5061	transparent, yellow, orange, red, green, blue, brown	ORALITE® 9900, 7900, 5900, 5800	24”, 48”	150’ (50-yard) 30’ (10-yard)	Up to 10 years
ORALITE® 5062	transparent	ORALITE® 5700, 5500, 5400, 5300	24”, 48”	150’ (50-yard)	Up to 7 years
ORALITE® 5051	transparent, yellow, red, blue *(other colors on request)*	ORALITE® 5700, 5500, 5400, 5300	24”, 48”	150’ (50-yard)	Up to 5 years
ORALITE® 5090	transparent	ORALITE® 6900, 5900, 5800	48”	150’ (50-yard)	5 years
ORALITE® 5095 Anti-Graffiti Film	transparent	All ORALITE® Sign Sheeting Materials	48”	150’ (50-yard)	10 years

Please Note: Ensures compliance with the minimum reflective values and color coordinates of EN 12899-1 (RA2, B).

Other sign making accessories

Product	Type	Description	Available Widths	Available Lengths	Outdoor Durability
ORAGUARD® 215DU	Laminating Film	Specially formulated for UV printed graphics. Cannot be used for regulated signage.	54", 60"	150' (50-yard)	5 years

ORALITE® UV Traffic Sign Printer

LED Hybrid Print System

ORAFOL partners with AGFA to offer a state of the art UV LED hybrid digital print system designed for the Traffic Sign Market.

The ORALITE® UV Traffic Sign Printer Premium, based on the AGFA Anapurna H2050i LED, utilizes the specially formulated ORALITE® 5019 UV ink system, comes with preinstalled software, and features proven and reliable print head technology made by market leader Konika Minolta. It is engineered to handle heavy workloads while offering low ink consumption.

The digital UV LED printer features 8 print heads, 6 color and 2 white (black express), which provide guaranteed printing of good solids, tonal rendering, and fine text reproduction on the entire family of ORALITE® retro-reflective films as well as a variety of substrates.

Achieve and protect high quality prints utilizing the **ORALITE® Engineered Matched System**; UV Traffic Sign Printer, 5019 UV ink, retro-reflective sheeting, and overlay films.

Save time and money

- Print direct to substrate or roll-to-roll
- Consistent quality from one print to the next
- No weeding required
- Increased shop efficiency

Work Faster, Cleaner, Greener

- No screens to setup, wash, or store
- No lengthy outgassing or dry time
- No solvent disposal

The service you expect from ORAFOL

- One year service contract
- ASTM D4956 and AASHTO M268 compliant
- ORAFOL warranted sign system (every color)

ORALITE® Engineered Matched Systems

Reflective Films

Product	Description	Durability
ORALITE® 7900	Wide Observation Angle Prismatic *ASTM Type IX*	Up to 12 years

Overlay System

Product	Description	Durability
ORALITE® 5061	Transparent Overlay Film	Up to 12 years
ORALITE® 5062	Transparent Overlay Film	Up to 7 years
ORALITE® 5051	Transparent Overlay Film	Up to 5 years

Ink System

Product	Description	Durability
ORALITE® 5019	Specially formulated UV ink system that meets ASTM D4956, AASHTO M 268 and FHWA 23 CFR part 655 highway color specifications	Up to 12 years

ORALITE® 7900

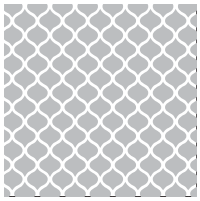
Wide Observation Angle Prismatic

For long-term outdoor signing in work zones, pedestrian and school crossings

Product Features and Benefits:

- Weatherproof
- 10 to 13-mil construction
- Clear, solvent polyacrylate, permanent adhesive
- Excellent digital UV and screen printability
- High performance acrylic film
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type IX, Class 1 retroreflective sheeting

Recommended lettering film: ORALITE® 5081, ORALITE® 5061
Recommended transparent overlay film: ORALITE® 5061
Recommended screen printing ink: ORALITE® 5018
Recommended digital UV printing ink: ORALITE® 5019



Product Identification pattern for ORALITE® 7900

Product	Available Colors	Print Compatibility	Available Widths*	Available Lengths*	Outdoor Durability
ORALITE® 7900	white, orange, fluorescent yellow, fluorescent yellow/green	screen printing & digital UV printing	12.75", 18", 24", 30", 36", 48"	150' (50-yard)	Up to 12 years

*Custom sizes available. Please contact your local sales representative for more information.
Please Note: This product is exclusively intended for adhesion to flat surfaces.

ORALITE® 5930

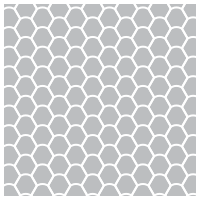
High Intensity Prismatic (HIP) Construction Grade

For short and medium-term outdoor applications

Product Features and Benefits:

- Weatherproof
- 18-mil
- Clear, permanent adhesive
- Excellent screen and digital UV printability
- Excellent adhesion to low energy plastics
- Surface of acrylic film
- Meets ASTM D4956 specification for Type IV and Type IX (fluorescent orange only), Class 1 retroreflective sheeting

Recommended lettering film: ORALITE® 5081, 5061 black
Recommended transparent overlay film: ORALITE® 5061
Recommended screen printing ink: ORALITE® 5018
Recommended digital UV printing ink: ORALITE® 5019



Product Identification pattern for ORALITE® 5930

Product	Available Colors	Print Compatibility	Available Widths*	Available Lengths*	Outdoor Durability
ORALITE® 5930	white, yellow, fluorescent orange	screen printing & digital UV printing	18", 24", 30", 36", 48"	150' (50-yard)	3 years
	fluorescent yellow-green		12", 36", 48"		

*Custom sizes available. Please contact your local sales representative for more information.
Please Note: This product is exclusively intended for adhesion to flat surfaces.

ORALITE® 5830

High Intensity Construction Grade

For short and medium-term outdoor applications

Product Features and Benefits:

- Weatherproof
- 8.25-mil
- Clear, permanent adhesive
- Excellent screen printability
- Excellent adhesion to low energy plastics
- Meets ASTM D4956 specification for Type III, Class 1 retroreflective sheeting

Recommended screen printing ink: ORALITE® 5018

Product	Available Colors	Print Compatibility	Available Widths*	Available Lengths*	Outdoor Durability
ORALITE® 5830	white, yellow, orange, red, green, blue	screen printing	24", 30", 36", 48"	150' (50-yard)	5 years

*Custom sizes available. Please contact your local sales representative for more information.

ORALITE® 5430

Construction Grade

For short and medium-term outdoor applications

Product Features and Benefits:

- Weatherproof
- 3.5-mil
- Excellent adhesion to low energy plastics
- With watermark and a surface of cast PVC copolymer
- Excellent corrosion and solvent resistance
- Designed for low energy work zone traffic control devices

Product	Available Colors	Print Compatibility	Available Widths*	Available Lengths*	Outdoor Durability
ORALITE® 5430	white, yellow, orange, red, green, blue	solvent inkjet printing	24", 30", 36", 48"	150' (50-yard)	4 years

*Custom sizes available. Please contact your local sales representative for more information.

typical application examples of ORALITE® 5430 and 5370

ORALITE® 5370

Engineer Construction Grade

For work zone sign sheeting

Product Features and Benefits:

- Weatherproof
- 3.5-mil
- Clear, solvent-based, permanent adhesive
- Excellent printability with solvent screen print inks
- Excellent adhesion to sign substrate materials (e.g. aluminum and coroplast)
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type I, Class 1 retroreflective sheeting

Recommended screen printing ink: ORALITE® 5018

Product	Available Colors	Print Compatibility	Available Widths	Available Lengths	Outdoor Durability
ORALITE® 5370	white	screen printing	24", 36", 48"	150' (50-yard)	3 years
	yellow		48"		
	orange		36", 48"		

Please Note: This product is exclusively intended for adhesion to flat surfaces.

ORALITE® 5270

Engineer Construction Grade

For the construction work zone

Product Features and Benefits:

- Weatherproof
- Aggressive pressure sensitive adhesive
- Excellent adhesion to low surface energy plastics
- Pre-printed diagonal stripe available in left and right hand directions
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type I, Class 1 retroreflective sheeting

Product	Available Colors	Print Compatibility	Available Widths	Available Lengths	Outdoor Durability
ORALITE® 5270	white, yellow, orange	N/A	4", 6"	150' (50-yard)	3 years

typical application examples of ORALITE® 5270

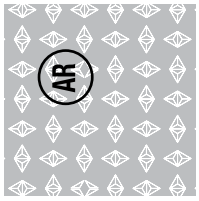
ORALITE® AR1000

Delineation Sheeting

For use in long-term impact and abrasion resistant delineation and work zone barriers, guard rails and roadside post applications

Product Features and Benefits:

- Weatherproof
- Aggressive pressure sensitive adhesive
- Excellent adhesion to metal, painted metal, urethane and structural plastics
- Mono-layer construction
- No edge sealing required
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type V, Class 1 retroreflective sheeting



Product Identification pattern for ORALITE® AR1000

Product	Available Colors	Print Compatibility	Available Widths*	Available Lengths	Outdoor Durability
ORALITE® AR1000	white, yellow, red, green, blue	N/A	3", 4", 6"	150' (50-yard)	5 years

*Custom widths available. Please contact your local sales representative for more information.

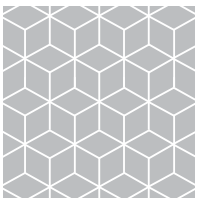
ORALITE® Roll Up Sign Blanks

Flexible Applications

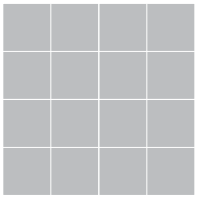
For traffic control signing in temporary work zones, utility, and incident management applications

Product Features and Benefits:

- Weatherproof
- Lightweight construction provides ergonomic and economic solutions over rigid signing
- No sharp edges to cut hands
- Easy to set up and take down within the work zone
- Excellent printability with solvent screen print inks
- Fabric reinforced microprismatic sheeting with smooth sealed outer surface and ESP (Enhanced Surface Preparation) coating to keep sign surface cleaner in harsh environments
- Meets requirements of MUTCD
- Meets ASTM D4956 specification for Type VI, Class 5 retroreflective sheeting



Product Identification pattern for ORALITE® Marathon™ Roll Up Sign Blanks



Product Identification pattern for ORALITE® Super Bright™ Roll Up Sign Blanks

Product	Available Colors	Print Compatibility	Available Sizes	Outdoor Durability
ORALITE® Marathon™ Roll Up Sign Blanks	white, marathon fluorescent orange*, fluorescent yellow-green	screen printing	36" x 36" 48" x 48"	3 years
ORALITE® Super Bright™ Roll Up Sign Blanks	white, yellow, fluorescent orange, fluorescent pink	screen printing	36" x 36" 48" x 48"	3 years
ORALITE® Non Reflective Roll Up Sign Blanks	white, orange, yellow, and pink	screen printing digital printing	36" x 36", 48" x 48" 48" x 150' (50 yards)	3 years

*Warranted for 3 years

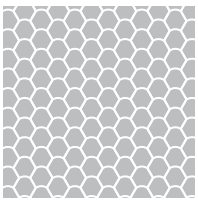
All ORALITE® Roll Up Sign Blanks are ***now*** 100% seam free!

ORALITE® Marathon™ Roll Up Sign

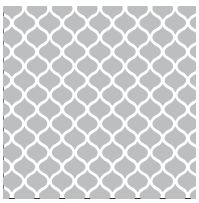
NEW! ORALITE® Reboundable Sheeting

Flexible Applications

For rugged construction work zone use, including channelizers such as drums, tubes, barricades, and delineators



Product Identification pattern for ORALITE® 5934



Product Identification pattern for ORALITE® 5935

Product Features and Benefits:

- Weatherproof
- 5934 - 10-mil; 5935 - 14-mil
- Clear, solvent polyacrylate, permanent adhesive
- High performance PVC film
- Meets requirements of MUTCD
- 5934 meets ASTM D4956 specification for Type IV, Class 1 and Type VI, Class 1 retroreflective sheeting
- 5935 meets ASTM D4956 specification for Type VIII, Class 1 retroreflective sheeting

Product	Available Colors	Print Compatibility	Available Widths	Available Lengths	Outdoor Durability
