Printer/Ink Compatibility

Océ 6C1G is recommended for use with dye and pigment inks in most of today's printers.

Application Instructions

Please refer to finishing section below.

Finishing Recommendations

Océ 6C1G can be laminated with pressure sensitive laminates when printed with the Océ ColorWave 500/650/700 printers. You can use thermal laminates with the Océ ColorWave 900 printer and other aqueous inkjet technology.

This information is presented as a general guide and is not a performance guarantee.

The user should independently determine prior to use the suitability of the material for the specific purpose.

Color Profiles

Océ 6C1G is recommend for use with Océ ColorWave 500/650/700 and 900 printers. For the Océ ColorWave 500/700 you can use the Océ 6C1G OMP profile available for download. Océ ColorWave 650 users would use the Océ PHPR7 OMP profile. Onyx Users can download the Océ 6C1G OML for use with the Océ ColorWave 700 printer. Océ ColorWave 900 users can choose the 6C1G profile.
