Printer/Ink Compatibility

Océ ID7S is recommended for use in the aqueous pigment and dye printers. You can also use Océ ID7S with Canon, HP, Epson aqueous inkjet printers. You can also use the Océ ID7S in the Océ ColorWave® 300 printer.

Media Handling

To avoid smudges and marks on your finished print we recommend handling the coated surface while wearing cotton gloves. Store unused media in original packaging, vertically. For best results, let media acclimate to printing room conditions for 48 hours before use

Finishing Recommendations

For best results from printing the Océ ID7S you can use either Low melt or pressure sensitive laminates. For best results print should dry 24 hours before lamination.

Important

Printer and driver setting need set up to ensure the best performance. Appropriate ink loads must be set for the ink/printer combination being used.

ICC Color Profiles

ICC color profiles will improve image quality and optimize ink limits for improved dry time, wider color gamut, and more accurate color matching. For printer
